UID Emerging Issues and Actions

- Engine manufactures take a leading role
  - Proposing a solution to merge ISO and ATA data requirements
  - Proposing use of single process initiative
- AIA requests DCAA/DP/DCMA provide cost guidance on UID
- Industry associations are working with OSD to
  - Further refine implementation guidance
  - Develop preliminary UID policy for Government Furnished Property with DCMA
- Services and Defense Agencies
  - Establishing joint IPTs (e.g. Army boats and NAVSEA; Aviation)
  - Working to identify budget requirements
  - Define requirements for the legacy registry
  - Requesting guidance regarding legacy assets
- OSD Unique ID folks are developing a joint set of actions (e.g. Identity Management, Force Structure Identifier, Real Property Identification, RFID)
